The mesquito ecenis to be ubliquitous just now, if we are to judge from the complaints of our correspondents, but we really don't know what to do for their aggrieved persons. They average politicism. Mosquiloos and politicisms bite and sting and steal and buzz, and are too insignificant and small to punial. You bring down your hand, heavily upon them, and whon you lift it again they are gone. You can hurryour hand, but the insect escapes unharmed. We did not create the mosquiloo, nor do we know why he was created. But in one respect we recognize the wisdom of Providence, and that is that he is made so small. This is as far as our sinful souls can go in the way of gratitude in regard to the mosquilo. and is shows, we think, a religious disposition. The mosquito himself does not ald us in practicing the virtues, but, on the contrary, is responsible for much himsphemy, which, it is to be hoped, the recording angel will hole out, as he did Unice Toby's oaths, with a tear. In the silence of the night he comes and makes his statement to the alcoping ear. This little hous is more terrible than the roar of a lion, and when it is heard we group. Like the voice in "Macbeth," it cries, "Sleep no more!" to all the house. It is then that the trouble begins. We know that slumber is impossible. With wild beatings of the face and head the dreadful conflict begins; muttered oaths and moans of wretcheddness arise from the wommled, and it is no consolation that blood must wipe out the deadly wrong, for whether you get the better of the mosquito or he gets the better of
